

constrained markov decision processes pdf

A Markov decision process (MDP) is a discrete time stochastic control process. It provides a mathematical framework for modeling decision making in situations where outcomes are partly random and partly under the control of a decision maker.

Keith Price Bibliography Tracking of Moving Objects and

In probability theory and statistics, a covariance matrix (also known as dispersion matrix or variance-covariance matrix) is a matrix whose element in the i, j position is the covariance between the i -th

and j -th elements of a random vector.
